

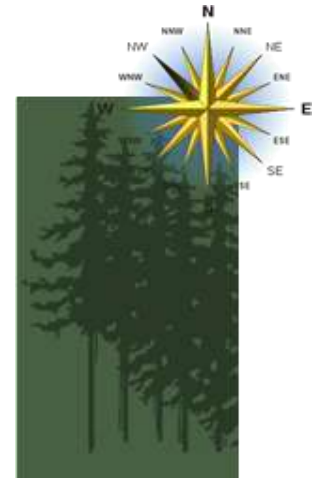

Graphic Design & the Internet

“Northwest Website Assignment”

Overview

The objective of this activity is to design a website relating to a “Pacific Northwest Topic Theme” that would surpass or better any other related pages on the net. To start, you will need to locate and critique related topic sites already found on the internet. Second, gather and organize informational content relating to your Northwest topic you’ve chosen. Identify your graphic layout (template), sub-page topics, and color scheme. All page topics and content will be pre-approved by the course instructor and will be subject to editing.

Layout and Content Requirements

1. Identify a Northwest topic theme (See chart below) for website ideas.
2. Complete the “Site Map” for the organization outline of the site.
3. Create a “Northwest” Folder/Directory to locate the site in.
4. Select a “Template” and download the zip file of it into the site folder. Copy the contents of the zip file into the root of the NW site folder.
5. Copy and paste the template contents from the zip file into the Northwest root folder.
6. Set up manage the site in Dreamweaver.
7. Creating Graphic Headers for each page in the site.
8. Setup the header references on each page for the CSS and HTML to locate the different page headers.
9. Include a minimum of (4) sub-topic pages in your site not including your index page.
10. Include a (6th) page called “Resources”. Include a minimum of 15-20 links to other sites relating to content in your site.
11. Research content and create content for each page.
12. Locate at least 5 graphic images and or photos to support each topic page in the site.
13. Each page should have a minimum of 2 paragraphs of related content information.
14. Hyper link all key words on each page.
15. Link all your site pages together.
16. Create the Footer for each page.
