CHS Website Design
"Business Website Assignment"

Overview
Your objective for this assignment is to design a website for a local business you are opening in the Camas area. The site should advertise/promote the business for the services and or products it has available for the local consumer. To begin, gather and organize informational content relating to your Business site, as well as locate other similar business sites on the internet that you could gather ideas from for content and layout. All page topics and content will be pre-approved by the instructor and will be subject to editing.

Layout and Content Requirements

1. Create a site map as outlined to you in class, see the example provided.
2. Include a minimum of **4** sub topic pages in addition to your main index page.
3. Locate a website html/css template to build your site with in Dreamweaver.
4. Customize a header banner for the site and possibly each page. (site name, graphics, etc.)
5. Create all subtopic pages and set up navigation links.
6. Each page should have a minimum of a paragraph of related information content.
7. Hyperlink all key words on each page.
8. Include a minimum of five related graphics/photos on each page.
9. Include a minimum of five Additional Information Related Links at the bottom of each page.
10. All pages should include navigation to all site pages and footer information outlined below.
